

Easy Peasy

Science Labs and Fair

Science Project Kits

Use fun, hands on science projects to teach science and to reinforce the scientific method. Simply complete these experiments in 1-3 days or go deeper, using provided learning materials, to really understand the science behind your kit for up to 9 weeks of lessons.

5 SECOND RULE LAB KIT

Grow bacteria to find out if the 5 Second rule is true!
Grades K-10

\$48.95

DNA EXTRACTION LAB KIT

Extract DNA from strawberries and bananas to see which has more DNA. Grades 2-10

\$48.95

HAND SANITIZER VS BACTERIA

Grow bacteria to find out if hand sanitizer works!
Grades K-10

\$48.95

GLOWING DETECTIVE LAB KIT

Use the glowing chemical forensic scientists use at crime scenes. Grades 2-10

\$48.95

ENZYME EATERS LAB KIT

Watch the best laundry detergent eat away the most gel!
Grades K-10

\$45.95

DIFFUSION RACES LAB KIT

Will heat speed up how fast colors race through your gel?
Grades K-10

\$45.95

SUPER POLYMERS LAB KIT

Learn the science of water beads. Test snow, plant crystals and diaper polymers! Grades PreK-8

\$45.95

SAVE BY BUNDLING

We have conveniently bundled our project boxes together by subject. Each box allows at least 4 people to experiment, making these perfect for a family to share.

- Chemistry Bundle \$225.95
- Biology Bundle \$195.95
- Deluxe Biology Bundle \$355.95

BIOLOGY BUNDLE

5 Second Rule (Grow Bacteria)
Hand Sanitizer vs Bacteria (Grow Bacteria)
DNA Extraction
Diffusion Races
Pocket Microscope

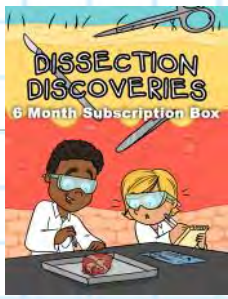

DELUXE BIOLOGY BUNDLE

1000x Digital Microscope with LCD Monitor
5 Second Rule (Grow Bacteria)
Hand Sanitizer vs Bacteria (Grow Bacteria)

Diffusion Races
Pocket Microscope

CHEMISTRY BUNDLE

Glowing Detective (Forensic Science)
Enzyme Eaters
Super Polymers
Mystery Powder Lab
Mystery Volume Lab
Ooey Goopy Chemistry Curriculum -
Teacher Guide and Student Workbook

DISSECTION DISCOVERIES - 6 PART ANATOMY AND BIOLOGY BOXES

An amazing exploration of the human body through dissection and hands on activities. Each month you will receive a specimen to dissect, a hands on experiment, online dissection labs, an easy to follow dissection guide, and at least one of the following: full sized model, tool, or book. Throughout the 6 months students will dissect an earthworm, pickle, kidney, heart, eyeball, brain and a frog. Lesson guides and pacing charts are included and provide a full curriculum. Recommended for grades 5-12.

- \$73 a Month x 6 Months (\$438)
- Sibling add-on \$41 a Month (\$245)
- All-in-One \$435.95

August, October and January start times. You can also choose to order the entire bundle All-in-One together.

- Ozobot EVO** **\$205.95**
Evo introduces you to the wild world of robots. The award winning Evo gets kids coding and loving robots with the stroke of a marker and then takes them further as they learn to block code one step at a time on the computer. Each Evo comes with a full robotics kit: USB charging cable, 4 color code markers, and Evo Experience Pack. It also comes with an app for ios and android. Ages 8+

BUNDLE FOR AN EVEN MORE AMAZING EXPERIENCE!

- Racer Ozobot Bundle** **\$289.95**
- Unicorn Ozobot Bundle** **\$289.95**

The racer and unicorn bundles include all of our favorite EVO things including the EVO robot itself! The bundle comes with everything: an EVO, experience pack, an EVO case, 3 extra sets of color code markers, diy stickers, either a racecar or unicorn wearable skin, color code stickers, and both printed Educator bootcamp and starter activities from ozobot.com.

Magna-tiles Animal Bundle \$75.50

This bundle has all of the Magna-tiles animal collections. Erecting new environments to creating exciting animal adventures, young animal lovers can find endless opportunities to explore without leaving the playroom. All Magna-tiles are compatible with each other.

- Magna-Tiles® Jungle Animals 25 piece set
- Magna-Tiles® Safari Animals 25 piece set
- Magna-Tiles® Arctic Animals 25 piece set

Magna-tiles Bundle \$285.95

This bundle has all of our favorite Magna-tiles in it. Enjoy hours of creativity, excitement and unstructured play with these colorful, interactive and magnetic tiles.

- Magna-Tiles® 100-Piece set
- Magna-Tiles® Glow in the Dark 16-Piece Set
- Magna-Tiles® Freestyle 40-Piece Set
- Magna-Tiles® Cars 2-Piece Expansion Set
- Magna-Tiles® Storage Bin & Interactive Play-Mat

Magna-Tiles® Metropolis 110 Piece Set 142.95

Featured in this extensive set are 110 magnetic tiles in vibrant, translucent colors. Included are two vehicle chassis for building cars and trucks, a spinner for building a windmill or helicopter, and realistic architectural features for bringing big ideas to life.

Magna-Tiles® 100-Piece Set \$130.95

The original 3D magnetic building sets that engage young minds by fusing together math, science and creativity. 100 translucent, colorful shapes are included. Sparks hours of imaginative free play in children. Anything they can dream, they can create!

Magna-Tiles® Freestyle 40-Piece Set \$79.95

Unlike traditional Magna-Tiles where the magnets are stationary around the outside, Freestyle contains new tiles with nine free-moving magnets whose mobility allows pieces to connect to one another in new and surprising ways.

Magna-Tiles® Glow 16 Piece Set 35.95

This magnetic building set features 16 glow in the dark Magna-Tiles pieces. Included in this expansion Magna-Tiles Set are the standard shapes (small squares, equilateral triangles, isosceles triangles, and right triangles).

Picasso Tiles Race Track 100-Piece Set \$105.95

Assemble your own race tracks with this set that features turns, slopes, geometric figures, and more. Discover how pieces fit together to create elaborate tracks, and expand your knowledge of geometry for educational fun. These will work with Magna-tiles.

Tiny Science, Robot, and Baking Bundle \$79.95

These three kits have been a huge hit with our children, and I love the science lessons they teach. Another plus is that since these kits are tiny, they only make a tiny mess! This bundle includes the: Tiny Science Kit, Tiny Baking Kit and Tiny Robot Kit.

Q-BA-MAZE Colossal Marble Set \$225.95

A unique system of colorful cubes that interlock to form an exciting marble run. The big difference? The configurations are UNLIMITED: create runs shaped like rockets, robots, butterflies, or whatever design you want! Challenge your child's spatial skills with hours of continuous play. All Q-BA-MAZE kits are compatible. Light kit is included.

Mega Marble Run: 215 Piece Set \$89.95

The classic MindWare Marble Run is back—but BIGGER and BETTER than ever! With a motorized elevator, over 200 track pieces, the MEGA Marble Run will send marbles on a twisting, spinning and jumping journey like you've never seen before. The brightly colored chutes, drop-throughs and spinners stack and click together to create hours of engineering fun.

Aqua Maze Marble Run \$59.95

It's a wet and wild marble ride that's sure to blow traditional marble runs—and science toys for kids—out of the water. From vertical drops and a vortex, to spinners and spouts, kids can get their feet wet in the basic principles of physics. Buoyant marbles keep the wonder afloat and a waterproof play mat makes cleanup a breeze.

Snap Circuits® Arcade \$79.95

It's fun like an Arcade while supporting a vigorous STEM curriculum. Snap Circuits® uses building pieces with snaps to assemble different electronic circuits. Learn the basics of electricity, engineering, and circuitry with full color, curriculum rich, easy-to-follow instructions for 200 projects.

Snap Circuits® EXTREME \$163.95

Build exciting projects such as FM radios, digital voice recorders, AM radios, burglar alarms, doorbells, and much more! You can even play electronic games with your friends. Contains over 80 parts to build over 750 projects. Includes projects in solar and electromagnetism.

Snap Circuits® Light \$98.95

Watch and be amazed at what your music can do with the new Snap Circuits® LIGHT. Connect your iPhone® or other device and enjoy your music as the lights change to the beat. The strobe light with spinning patterns will amaze you with its visual effects. Build over 175 exciting projects.

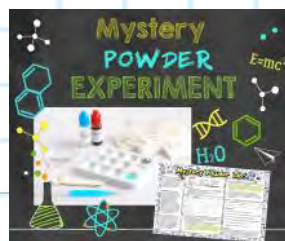

Snap Circuits® Rover \$125.95

Have FUN building your own RC Snap Rover® using the colorful Snap Circuits® parts that snap together with ease. Kids create rovers and other fun devices by snapping together working circuitry. Guide your Snap Rover® with the easy-to-use remote control. Perform over 40 experiments with your Rover.

Mystery Volume Lab \$15.95

Use your graduated cylinder and pipette to learn about measuring volume as you complete 3 fun volume activities!

Mystery Powder Lab \$19.95

Use a mild acid, an indicator, and other methods to identify mystery white powders just like forensic detectives do.

Brushbot Kit \$19.95

Making this simple brushbot robot is a fun and hands on way for your child to learn about circuits.

This exciting new addition to our microscope collection has an extra large screen and can be used with both slides and 3-dimensional objects! It has a 2000x zoom and can take videos and pictures. The experience pack includes a 25 slide pack, brine shrimp eggs, a butterfly, feather, circuit board and engaging labs.

Compound 7in Digital LCD Microscope \$385.95

LCD Digital Microscope \$165.95

This stereo microscope with an LCD monitor is a great addition for your family laboratory. Use it to examine 3D items instead of slides. It can zoom in up to a 1000x to give you an up close look at anything from salt crystals to bugs and stamps. This model includes a micro SD card for taking pictures and video.

We love this easy to use and super smooth microscope. The trinocular head allows you to add a camera or mount a phone. 4x, 10x, 40x and 100x objective lenses allow for up to 1600x magnification. This high end microscope can be used with your elementary student all the way through college. Dust cover included.

EPS 1600 Series Trinocular Microscope \$495.95
5 year warranty

Microscope Accessory Bundle \$165.95
 Microscope Accessory Bundle w/ Microscope Purchase \$130.95

We have bundled our favorite microscopy accessories and learning tools so that you can begin using your microscope right away. In this bundle you will find an attachment adapter for a cell phone, 100 prepared biology slides for viewing and blank slides and 100 cover slips. A microscope discovery kit is included and it contains tools and stains for making your own slides. It also includes a concave slide for you to view pond water or other liquid specimens. Also included is a wonderful introductory microscope book called the "The World of the Microscope" this book teaches about microscopes and includes basic activities and slide making instructions. Included:

- 100 Prepared Biological Slides
- Phone Attachment Adapter for Microscope
- Blank Slides and 100 Coverslips
- Microscope Discovery Set including Stains
- The World of the Microscope Book

Comprehensive microscope set that includes: 100 slides + cover slips, 2 bottles of non-toxic stain, concave slide, lens paper, tweezers, teasing needle, cotton swab, petri dish and plastic test tube.

Microscope Discovery Kit + Slides \$35.95

Phone attachment and adapter for your compound microscope. Zoom in even more on specimens and take videos and photos of what you are seeing! This is also an excellent way to make sure your child is focusing correctly.

Microscope Phone Adapter \$29.95

100 slide biology collection of various plants, insects and animal tissues. The slides are cover-slipped and preserved in cedar wood oil. They are premium, accurately stained and machine cleaned slides that will give a sharp image. All slides are carefully labeled for easy reference and are arranged in a fine crafted varnished wooden case with brass hardware.

100 Slide Collection \$125.95

Zoom in on the world around you with this small but powerful pocket microscope. 8 lab activities are included with this 60x microscope that include comparing small crystals and studying Velcro. Your whole family will love this!

Pocket Microscope \$15.95

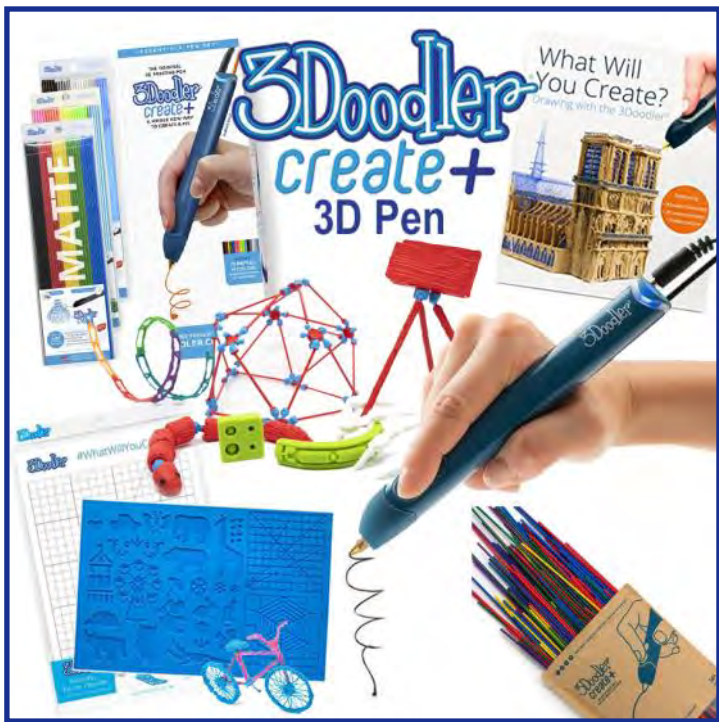

200X Phone Microscope \$59.95

Attach this microscope to your phone and you will see incredible things as it allows you to zoom into the world around you with ease. 6 lab activities are included.

Phone Camera Lens Set \$19.95

This set includes 3 different lenses. The macro lens allows for extreme close up pictures The wide angle can attach to the macro and gives a larger range to your picture, and the fish eye allows for a wide hemispherical picture.

3Doodler Create+ Pen \$95.95

Discover a whole new way to make art, fix things, design wearable items, build models, and decorate your space! The easy-to-use Create+ pen extrudes heated plastic which hardens rapidly, allowing you to draw in 3D, freehand, or using stencils. Featuring dual technology, this easy to use pen will have a your child creating, designing, and engineering in no time!

3Doodler Create+ Pen Bundle \$245.95

This bundle has everything you need to doodle and design. We have collected our favorite accessories and tons of fun refills.

- 3Doodler Create+ Pen
- Stem Accessory Kit with roller coaster and ball and socket
- Clear Create Doodle Pad
- Silicone Doodle Mold Pad
- 250 strands of Plastics –Colors may vary
- What Will You Create Project Book
- Stencils and Project Instructions Printed from 3dDoodler.com

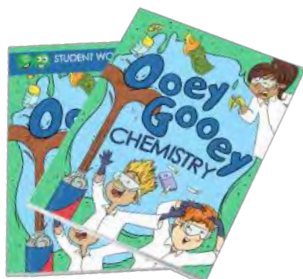

Refill Bundle \$95.95

Extra refills for all of your projects. We love the colors of these packs and are obsessed with the wood pack. The wood plastics have real wood dust in them that allows you to make wooden 3D structures

- 300 Strands of Various Colored Refills
- 1 Wood Refill Pack

Classroom Sized Refill Bundle \$299.95

This extraordinary pack has 1200 strands to extend hands-on learning with 3Doodler pens in your classroom. Used by schools for entire classrooms, this enormous refill pack will last your creator a long, long time! Includes PLA, ABS and even Flexy plastic filament. All manner of projects can be created from flexible to sturdy plastic.

Ooey Goey Chemistry

A fun introductory chemistry unit filled with exciting labs (which are easy to do at home), online explorations, and interesting activities. This curriculum will give your child a strong basis for understanding chemistry. 9-18 week curriculum. Grades 5-9. With parental assistance younger students can still benefit greatly from these books.

- Teacher Edition \$46.95
- Student Edition \$19.95

Polymer Balls

Polymer Ball Water Beads

Use these popular water beads to complete science labs. 3 sizes available in clear and rainbow colors:

- 2 Gallon.....5.95
- 5 Gallon.....11.95
- Kiddie Pool Size.....44.95

Giant Polymer Ball Water Beads

Available in rainbow

- 2 Gallon.....6.95
- 5 Gallon.....12.95
- Kiddie Pool Size.....46.95

Double Barrel Rock Tumbler with Accessories by Tumble Bee \$225.95

We love that this double-barrel rotary rock tumbler lets you tumble two batches at once! We have of course included everything you will need to use this tumbler. Included is one mega refill kit full of gemstones and a gorgeous jasper rock mix. Both kits include jewelry accessories. A full size set of polish, grit, and sifter are also part of this bundle. You will observe the transformation of rough-cut stone, to beautifully polished specimens.

TOPS Rocks & Minerals Lab Book + Materials and Student Booklet \$95.95

Examine, test, and classify rock samples from your own back yard. Unearth igneous, sedimentary, and metamorphic rock, then subdivide by geological formations. An egg carton organizes everything into a unique collection of personal discovery and learning. Complete these 36 lab activities to learn more about rocks & minerals. Included:

- Teacher Activity Book
- Student Lab Booklet
- Materials Necessary to Complete Labs

Classroom Set of Rocks & Minerals \$235.98

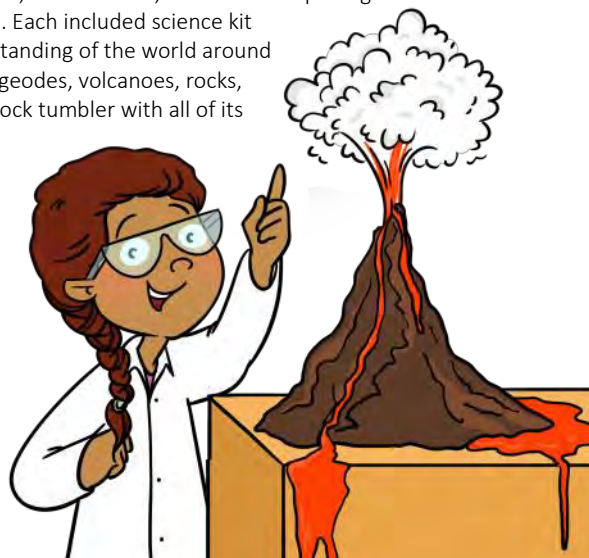

Let your family explore actual classroom sets of rocks and minerals. Two full sets are included: a collection of 75 rocks and minerals, and another collection of 15 unusual minerals that exhibit traits such as double refraction, magnetism, taste, and fluorescence. Use the full size magnifying glass and rock guide to help you explore each rock in detail. A larger amethyst quartz crystal, rocks that grow crystals, and pumice-the rock that floats, are also included!

ROCK AND GEOLOGY BUNDLE

- Deluxe Rock and Geology Bundle \$475.95**
 Rock and Geology Bundle \$260.95

This amazing Rock and Geology bundle provides a collection of rich resources to excite and teach your child about our earth. Your child will love growing crystals, causing a volcano to erupt, sorting through an incredible pack of rocks, fossils, and minerals, as well as completing the 36 lab activities in the TOPS book. We have hand selected books about geology, rocks, and minerals. Each included science kit provides teaching resources and fun hands on activities. You will have a much deeper understanding of the world around us and the study of geology. We've included a hands on and fun way to learn about crystals, geodes, volcanoes, rocks, minerals and fossils. Upgrade to a deluxe bundle to receive all of this plus the double barrel rock tumbler with all of its accessories.

- Crystal Growing Science Kit
- Mega Rock, Fossil and Mineral Collection and Activity Kit
- My Book of Rocks and Minerals
- Geology Lab for Kids
- Mineral Science Kit
- Rock Science Kit with full size Magnifying Glass
- National Geographic Build Your Own Volcano
- National Geographic Glow in the Dark Crystal Lab
- National Geographic Geodes
- TOPS Rocks and Minerals + Student Book and Materials
- **DELUXE BUNDLE:** All above + Double Rock Tumbler, Jasper and Gemstone refill kits, Large Grit Pack, Sifter, and Rock Placemat/Poster

EPS 400 Telescope \$195.95

This fantastic telescope allows you to explore space with its large field of view. It is easy to carry and to use. The finderscope on top helps make locating objects a breeze. With a 70mm aperture the objective lens makes the images bright and clear, achieves large field of view. This is a 70mm telescope with 400mm focal length, it has a larger magnification. The fully multi-coated lens offer excellent contrast and brightness of view image to protect your eyes. The finderscope, on top makes locating objects a breeze. A k25mm eyepiece, a k6mm eyepiece, and a moon filter are also included.

Telescope Phone Adapter \$29.95

Phone attachment and adapter for your telescope. Take pictures and videos of what you are seeing! We also love that more than one person can look at the sky at the same time.

TOPS Earth, Moon & Sun Lab Book + Materials and Student Booklet \$95.95

Improvise compasses and quadrants to track the sun and moon across a graph paper sky. Cover a tennis ball in a beautiful earth wrapper, then tilt it towards a tennis-ball sun to comprehend seasons. Wrap a Ping-Pong ball halfway in black tape to model moon phases that wax and wane. Progressively complete these 20 lab activities to learn more about our solar system. Included:

- Teacher Activity Book
- Student Lab Booklet
- Materials Necessary to Complete Lab Activities

ASTRONOMY BUNDLE

- Deluxe Astronomy Bundle \$395.95
- Astronomy Bundle \$235.95

This amazing Astronomy bundle includes new and exciting ways to introduce your child to the stars and planets above us. Your child will love launching the water rocket, learning about Galileo as they make his simple telescope, and completing the lab activities in the TOPS book. We have hand selected books about space, the stars, constellations, and the history of space exploration. You will be able to truly explore the night sky above you with the help of a red light, a sky atlas, and the Star Finder book. We've included a hands on and fun way to learn about the planets and constellations via building and painting a planisphere, and placing glowing stars. Upgrade to a deluxe bundle to receive all of this plus the EPS 400 Telescope, as well as a phone adapter.

- Galileo Telescope- Build Your Own
- Planisphere and Red Light
- Astronaut Ice Cream
- Water Rocket and Bike Pump
- Solar System Build your own Planetarium
- TOPS Earth, Moon and Sun + Student Book and Materials
- Eclipse Glasses
- Star Finder: A step-by-step Guide to the Night Sky
- Space! Smithsonian
- Glow Stars and Nova
- **DELUXE BUNDLE:** All above + EPS 400 Telescope and Phone Adapter

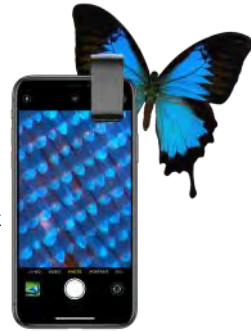

- Deluxe Ultimate Bug Bundle \$309.95
- Ultimate Bug Bundle \$179.95

We have put together all our favorite things about bugs and we know your child will love it! This bundle is designed to take your child's natural interests and to expose them to the science and wonder behind these tiny creatures. Learn about life cycles as you watch the metamorphosis of real ladybugs and butterflies. Look at real insects that have been preserved in acrylic cubes. Use the array of bug catching tools and containers to observe what you find in your backyard and on nature hikes. With the Deluxe Ultimate Bug Bundle you can use our 200x Microscope attachment to observe in fine detail whatever you find along your path. The macro lens collection to take pictures of all of the tiny creatures you see.

- Insect Lore Giant Butterfly Garden with Voucher for Caterpillars
- Insect Lore Live Ladybug Land with Voucher for Ladybug Larvae
- Pocket Microscope-Easy Peasy Science
- Bug Playground
- Bug Catcher Case
- Creature Peeper and Little Bug Keeper
- Butterfly Net
- Bunch of Large Plastic Bugs
- Ultimate Bug-opedia Book
- Everything You Need to Know About Bugs Book

- DELUXE BUNDLE:** Includes all of the above Plus:
- 200X EPS Phone Microscope
 - Macro Lens Set
 - Bug Collector Vacuum
 - Bug World Collection of 10 Preserved Real Insects

- Life Cycle Bundle \$89.95

Dive into lifecycles with these beautiful figurines that showcase 6 different animal life cycles (24 figurines). We have included a wooden life cycle board and two of our favorite books to use when learning about life cycles at home. Printed science activities are also included with this purchase.

- Giant Butterfly Garden with Voucher \$39.95

Witness butterfly metamorphosis at home with the Insect Lore Giant Butterfly Garden. This giant-sized version of Insect Lore's popular Butterfly Garden With Voucher includes an 18-inch tall habitat and Painted Lady Butterfly Life Cycle Stages.

- Ladybug Land with Voucher \$33.95

A family and classroom favorite. Insect Lore's Original Ladybug Land With Voucher is the only ladybug growing kit available! Ladybug Land provides a fascinating learning experience and yes, ladybug larvae really do look like little alligators!

- Dr. Steve Hunter's Bugs World Collection 30.95

Inspect a Bug's World up Close. 10 individually preserved insects in resin to examine from every angle. A variety of real beetles, crickets, hornets, scorpions, cicadas and shield bugs. Magnifying glass is included. Includes a full color booklet to identify each.

- Vacuum Bug Hunter Set \$40.95

Catch and examine cool creepy crawlies with this Vacuum Bug Hunter set. Features a bug vacuum with a night vision light that sucks up live bugs and a critter barn complete with air vent and magnifier.
